

**SUMMIT TOWNSHIP**  
**Public Work Session**  
**Monday, March 18, 2019**

The Summit Township Supervisors Public Work Session, as advertised, was called to order by Chairman Welka at 3:07 p.m. Also present were Supervisors Lee and Davis, Engineer Jonas, and Secretary Yeast. Jim Welka attended as an interested member of the public.

CALL TO ORDER

Engineer Jonas reviewed the proposed changes to the Summit Township Stormwater Ordinance that will keep Summit in compliance with Department of Environmental Protection's (DEP) 2022 Model Ordinance.

STORMWATER ORD.

Discussion ensued regarding removal of the Small Project Stormwater Management Application and limiting the Single Family Residential exemption. Rate controls that apply 1 and 2 year rain events were added where missing. The requirement to submit Erosion and Sedimentation (E & S) plans to Erie County Conservation District (ECCD) were reviewed and made more stringent at the request of ECCD.

Engineer Jonas noted that Section V of the original Model Ordinance deals with high quality and exceptional value streams will continue to be reserved.

Engineer Jonas explained that Article VI addresses riparian buffers and should mirror the Summit Township Flood Plain Ordinance.

Engineer Jonas reviewed regulations for safety fencing, including installation waivers. A few simple typographical errors were noted.

Discussion ensued regarding the number of copies of stormwater site plans, electronic "as-built" plans, and allowing for a rainy season prior to final inspection by the Township.

Discussion ensued regarding prohibition changes required by the DEP including the elimination of roof drain connections to road underdrains.

Engineer Jonas confirmed he will provide the Board a draft of the revised Stormwater Ordinance for Board review.

With no further discussion regarding proposed changes to the Summit Township Stormwater Ordinance, motion by Davis, seconded by Lee, to adjourn the meeting at 3:55 p.m.

ADJOURNMENT

Vote: 3/0

Respectfully submitted,

Christene S. Yeast
