Stephanie Harps, of the Summit Village MHP, again addressed the board with concerns regarding the condition of the driveway, a dead-end road and lack of attention by the owners of the park; she feels as if the township is ignoring her and would like to know what is being done. T. Wachter explained that these concerns have been reviewed at staff level and it was determined that this park existed prior to LDP requirements and is therefore a legal non-conforming use. Ms. Harps has been told many times that this is private property and her concerns need to be taken up with the owners.
