

CLEAR SIGHT TRIANGLE: In order to prevent the creation of a traffic hazard by limiting visibility at a street intersection, no structure, building, earthen bank, vegetation accumulation of snow or other materials exceeding three feet in height above the finished paved area at the center to the roadway shall be allowed within the clear sight triangle on corner lots. A 100 ft clear sight triangle shall be maintained at all street intersections. The clear sight triangle shall be established by measuring 100 feet from the intersection of the street centerline along said centerlines. Said clear sight lines shall be measured at a height of 3 feet above the surface of the street.
