Summit Simplicity – 2025

Dear Summit Residents,

Our 2025 “Summit Simplicity” calendar includes photos with quotes to show that less is more and that simplicity has beauty.

As you know, Summit Township resumed mandatory curbside recycling in 2024. The new program allows each residential household to have their recycling collected curbside by their current trash hauler.

Each residential household should have received a 65-gallon recycling toter. If you did not receive your toter or require a second one, please contact the township office at 814-868-9686 Monday through Friday from 8:00 am–4:00 pm.

Properly sort your recyclable materials from your trash and ensure all items are loose in the toter; no bagged items are allowed. Allowable items include newspaper, full-size office paper, cardboard, paperboard boxes, plastic bottles, plastic jugs, plastic jars, aluminum drink cans, and metal food cans.

Recycling your old electronics is also mandatory, which you can do at our annual spring clean-up. This year’s spring clean-up will be on Friday, May 9, and Saturday, May 10. You can also recycle your old electronics through the Erie County Recycling Program or at the store where you purchase your new product.

Information on where to recycle other items is listed in the front and the back of this calendar. If you have any questions regarding recycling, please call the township office at 814-868-9686.

Thank you, and have a great year,

Michelle Nesselhauf
Recycling Coordinator

CURBSIDE LEAF COLLECTION

Beginning in 2025, residents can opt to have their leaves picked up curbside. There will be a collection week in May and October.

Residents must contact the township office at 814-868-9686 to register. All leaf waste must be placed in clear/transparent bags and placed at the curb during the scheduled leaf collection weeks. Clear bags may be obtained from any retailer of your choice. Bags must be placed separate from trash and recycling and CANNOT contain grass and/or branches. Consider mulching your leaves onto your lawn instead of bagging for a more eco-friendly alternative.

GLASS RECYCLING IN SUMMIT

Summit Township has partnered with Bayfront Glass, LLC to provide glass recycling to Summit Township residents. Bins are placed next to the Township Garage on Old French Road where the old Municipal Building used to be. Please follow the attached use instructions which are also posted on the bins.

ReStore

REMODELING? DON'T FORGET THE HABITAT FOR HUMANITY ReSTORE

The ReStore, located at 4922 Pittsburgh Avenue in Erie, is a retail store operated by Greater Erie Habitat for Humanity. It's an outstanding opportunity to promote reuse and recycling of MANY items all while helping a great cause. The store is open to the public on Fridays from 9am – 12pm and Saturdays from 8am – 4pm. It's a great way to cut costs if you're doing a remodeling project!

If you don't need anything to complete your remodeling project, but you have new or gently used items to donate, ReStore is also the place for you! They accept donations or building materials including doors, windows, sinks, flooring, vanities, countertops, lights, as well as most other items that go in a home. They also accept kitchen cabinets and appliances that are less than 10 years old. To donate, please go to 4922 Pittsburgh Avenue on Tuesdays, Wednesdays and Fridays from 9am – 3pm. Drive around to the back of the building to the north facing loading dock. For more info, please visit them on the web at habitaterie.org/restore.

Prevent Water Pollution

What is an Illicit Discharge?

An illicit discharge is the disposing, dumping, spilling, emitting, or other discharge of any substance other than rain water into the storm sewer drainage system. The storm sewer drainage system includes streets, ditches, catch basins, yard drains, and stormwater detention/retention facilities.

Unlike sanitary sewers, storm sewer drains DO NOT lead to treatment facilities. This results in illicit discharges causing water pollution by sending pollutants right into our swamps, streams, ponds, and lakes. Would you dump oil into Walnut Creek? If you dump oil into a drain at the end of your driveway then your answer would be yes. Be sure you know what illicit discharges are so you can help prevent water pollution and keep our water clean!

Examples of an illicit discharge include:

- Sanitary wastewater
- Effluent from septic tanks
- Car wash wastewaters
- Improper oil disposal
- Radiator flushing disposal
- Laundry wastewaters
- Improper disposal of auto and household toxics
- Sediment and pollutants from construction sites

Reporting Illicit Discharges

To report an illicit discharge into our storm sewer drainage system and help prevent water pollution, please contact the Summit Township Municipal Office using one of the following:

- Phone: 814-868-9686
- Email: sumtwp@summitpa.us
- Website: <http://summittownship.com>
 - a) Click on the Contact Us tab - OR -
 - b) Click on Quick Links→Document Center→Stormwater Management→Citizen Complaint Illicit Discharge Reporting Form

Any substance other than storm water discharged directly into the storm sewer drainage system is a violation of the Summit Township Stormwater Management Ordinance, the Pennsylvania Clean Stream Law and the Federal Clean Water Act. Violators could face possible fines and cleanup costs.

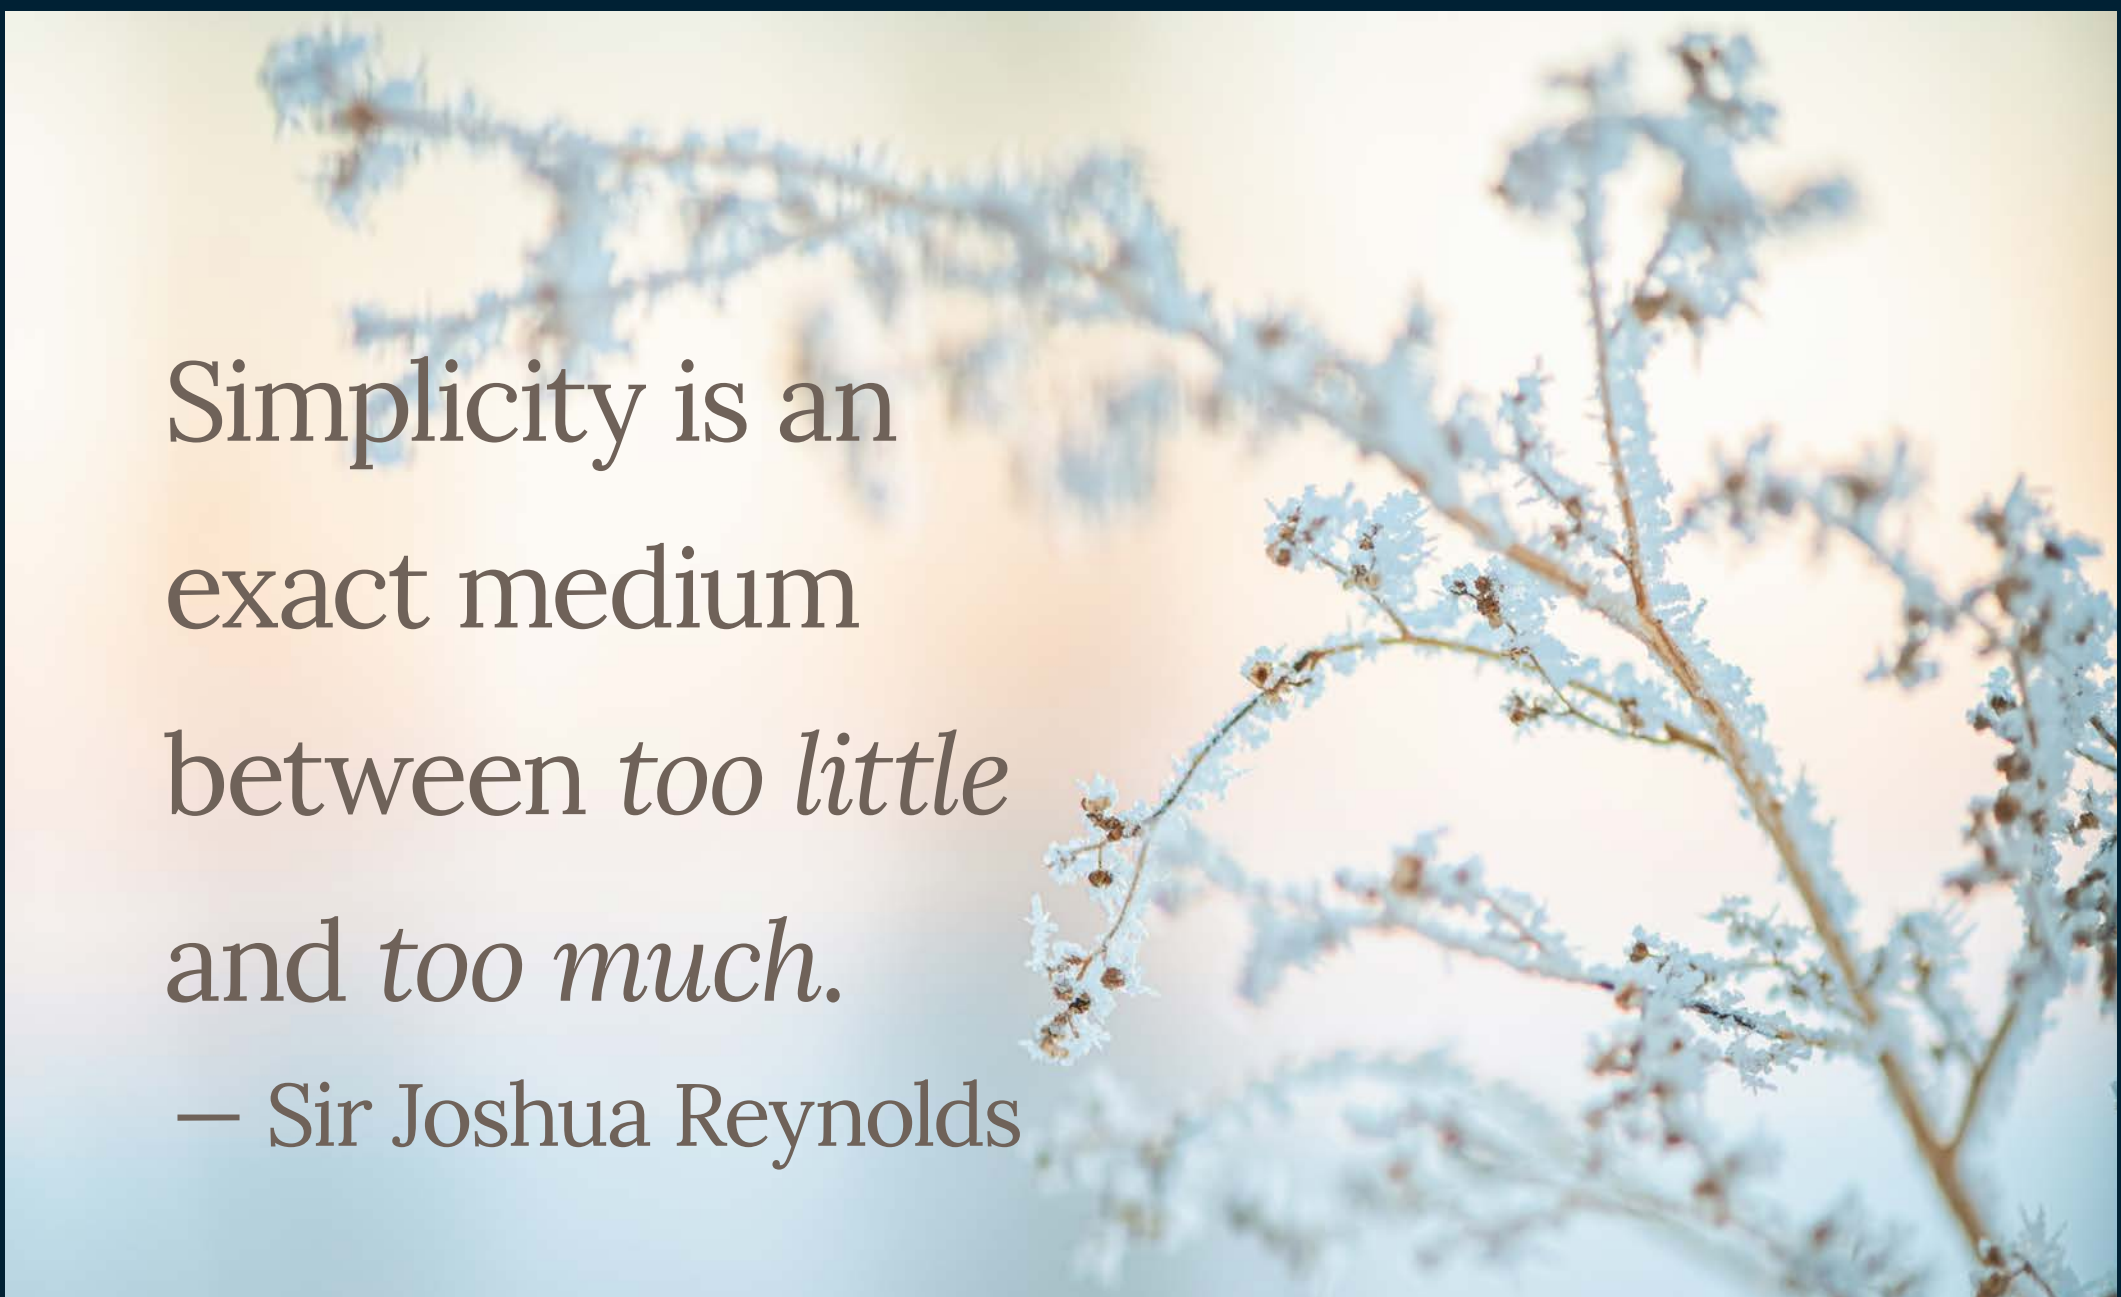

*Simplicity is the
key to brilliance.*

A large, spreading acacia tree stands in the center of a savanna landscape at sunset. The sun is low on the horizon, creating a strong backlight effect that silhouettes the tree and illuminates the sky with warm orange and yellow hues. The ground is covered in dry grass, and other smaller trees and animals are visible in the distance.

I believe that things can be expressed
very powerfully through simplicity.

Soil that erodes causes environmental degradation, including harming fish and shellfish populations that are important for recreation and our economy. Storm water carries sediment and pollutants that degrade fish habitats.

**WHAT HAPPENS WHEN WE DON'T
PROTECT OUR STORM WATER SYSTEM?**

Beaches close due to high levels of bacteria carried by storm water that make swimming unsafe. Also, more money will be spent maintaining the storm sewer system that becomes polluted by chemicals or clogged with dirt and debris.
